OPEX
SAFETY

**BRAND
PROFILE**

ABOUT US

Opex Safety is a premier UAE-based safety solutions provider dedicated to serving the oil, energy, and gas sectors. Founded under Dubai Brand Safety Pro Energy Supply FZ Co., we bring over five years of specialized experience to the industry, combining expertise with a passion for safety and environmental responsibility.

At Opex Safety, we understand the unique challenges of the industries we serve. Our focus is on delivering high-quality products and services that not only comply with stringent safety regulations but also promote a culture of safety and responsibility.

MISSION

At Opex Safety, our mission is to deliver innovative and reliable safety solutions that protect workers and the environment. We are dedicated to exceeding industry standards and providing exceptional service, ensuring that our clients can operate safely and with confidence in the oil, energy, and gas sectors.

VISION

Our vision is to be the leading safety solutions provider in the Middle East, recognized for our commitment to excellence, quality, and sustainability. We strive to set the benchmark for safety practices and to foster a culture of environmental responsibility in every industry we serve.

SPILL PALLET

OPEX 4 Drum Spill Pallet

C5 Holds (4) 205L Plastic or Steel Drums, 1300*1300*300mm, 280L Sump Capacity
In the line with SPCC, EPA requirements

Polyethylene (LLDPE) construction resists UV rays, rust, corrosion and most chemicals

Nestable design permits stacking when not in use; lowers cost of bulk shipping

The strongest standard deck you can buy for everyday drum storage

2800kg capacity is strong enough to support four fully loaded steel or poly drums

OPEX 2 Drum Spill Pallet

85 Holds (2) 55 gal. Plastic or Steel Drums, 1300x690x300mm, 150L Sump Capacity

In the line with SPCC, EPA requirements

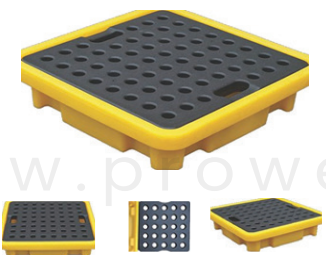

Polyethylene (LLDPE) construction resists UV rays, rust, corrosion and most chemicals

Nestable design permits stacking when not in use; lowers cost of bulk shipping

The strongest standard pallet you can buy for everyday drum storage

1200kg capacity is strong enough to support two fully loaded steel or poly drums

OPEX 1 Drum Spill Pallet

A2 Holds (1) 55 gal. Plastic or Steel Drums, 675

•675•150mm, 43 Sump Capacity In the line with SPCC, EPA requirements

Polyethylene (LLDPE) construction resists UV rays, rust, corrosion and most chemicals

Nestable design permits stacking when not in use; lowers cost of bulk shipping

The strongest standard pallet you can buy for Everyday drum storage

500kg capacity is strong enough to support a fully loaded steel or poly drums

OPEX IBC Spill Pallet

D4 Holds (1) IBC, 1350 1350•900 mm, 1300 L

Sump Capacity

In the line with SPCC, EPA requirements

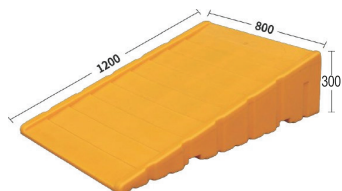

Polyethylene (LLDPE) construction resists UV rays, rust, corrosion and most chemicals

Nestable design permits stacking when not in use; lowers cost of bulk shipping

The strongest standard pallet you can buy for everyday drum storage

Strong enough for long-term storage of IBCs, this innovative design transfers weight to load bearing channels to maximize capacity.

OPEX Poly Loading Ramp

You don't need a forklift to load drums onto decks. A simple hand truck will do the job when you add our Poly Loading Ramp.

High Density polyethylene construction is chemical-resistant and easy to position

Edge guards guide drum trucks and help prevent them from rolling off the sides

OPEX Drum transporter dolly

Small drum dolly which can accommodate containers up to and including 205ltr steel drums

In the line with SPCC, EPA requirements

Polyethylene (PE) construction resists UV rays, rust, corrosion and most chemicals

5 castors for added stability

The strongest standard pallet you can buy for everyday drum storage

300kg capacity is strong enough to support a fully loaded steel or poly drums

ABSORBENTS

Absorbent pads for efficient cleanup of oil, fuel, and solvent spills. Maximum absorbency with minimal waste.

OIL PADS

Highly absorbent oil pads for quick and efficient cleanup of oil spills, offering maximum absorbency with minimal waste. Durable and easy to use.

CHEMICAL PADS

Chemical absorbent pads offer superior absorption of various chemicals, ensuring quick and efficient spill cleanup while minimizing waste and promoting workplace safety.

UNIVERSAL PAD

Highly absorbent universal pads effectively clean up a variety of spills, from oils and solvents to water, making them a versatile solution for any workplace or environment.

SOCKS

Absorbent socks effectively contain and soak up non-hazardous liquid spills, such as oils and coolants, around machinery. Their strong wicking action helps to prevent spills from spreading, ensuring a safer and cleaner workspace.

OIL SOCKS

Oil socks are designed to absorb and contain oil spills, preventing them from spreading. Ideal for industrial settings, they provide quick and efficient cleanup to maintain a safe workspace.

CHEMICAL SOCKS

Chemical socks are designed to absorb and contain spills of hazardous liquids, such as acids and solvents. Their durable and chemically resistant fabric ensures effective cleanup, making them essential for safe handling in industrial and laboratory environments.

UNIVERSAL SOCKS

Universal socks are designed to absorb and contain spills of oils, water, and other liquids. Their multifunctional design makes them ideal for various settings, providing efficient spill management and enhancing workplace safety.

PILLOW

Absorbent pillows are designed to capture and contain large spills of oils, fuels, and other liquids. They are ideal for use under machinery, in drip trays, or to absorb pooled liquids, ensuring efficient spill control and a safer workspace.

OIL PILLOWS

Oil absorbent pillows are designed to soak up and contain oil spills effectively. Ideal for use under machinery and in high-spill areas, they offer quick absorption to maintain a safe and clean environment.

CHEMICAL PILLOW

Chemical absorbent pillows are designed to quickly and safely contain and absorb hazardous chemical spills. Perfect for laboratories, industrial facilities, and any environment handling aggressive chemicals, these pillows provide reliable protection and easy cleanup.

UNIVERSAL PILLOW

Universal absorbent pillows effectively absorb and contain a wide range of liquids, such as oils, water, and chemicals. Ideal for various applications, these pillows ensure quick cleanup and promote a safer working environment.

ROLLS

Absorbent rolls offer convenient spill control for smaller messes involving acids, alkalis, and strong chemicals. Easy to tear and use, they provide efficient cleanup and maintain a safe workspace.

OIL ROLLS

Oil absorbent rolls provide a continuous supply of absorbent material for effective cleanup of oil spills. Their perforated design allows for easy tearing and customized use, making them ideal for containing and absorbing oil in various settings, from workshops to industrial facilities.

CHEMICAL ROLLS

Chemical absorbent rolls are designed for quick and efficient cleanup of spills involving acids, alkalis, and other strong chemicals. Their durable, high-performance material and strong wicking action ensure maximum absorbency with minimal waste.

UNIVERSAL ROLLS

universal absorbent rolls provide a versatile solution for a wide range of spills, including oils, water, and chemicals. Their strong absorbency and perforated design allow for easy dispensing and efficient cleanup in various settings.

ABS Vertical Eye Washer

The whole body is made of high quality ABS engineering plastics with excellent corrosion resistance to acid and alkali. Suitable for the use of stainless steel can not meet the requirements of the use of strong corrosive environment.

Precautions for use

- 1: stay away from plexiglass glue (acrylic glue), or carbon, acrylic acid, methacrylic acid chemicals.
- 2: away from open fire, material with flammability
- 3: Stay away from epoxy resin and curing agent

Standard Composite Eye Washer

Optional 1. pedal, hand-foot linkage, more convenient operation. Push the pedal or push the hand push board, turn on the eye wash switch, turn off the hand push board, and turn off the eye wash switch.

2. High-performance anti-freezing device for air evacuation can turn off the water control switch after use, which can prevent frost from accumulated water inside the manual air evacuation equipment, effectively solve the problem that the pipeline can not be used because of the low ambient temperature, resulting in serious consequences.

3. Flow regulator can adjust the size of water flow according to the pressure of water source. Effective prevention of secondary injury caused by excessive water pressure.

Double Anti - Compound Eye Wash

Optional 1. pedal, hand-foot linkage, more convenient operation. Push the pedal or push the hand push board, turn on the eye wash switch, turn off the hand push board, and turn off the eye wash switch.

2. High-performance anti-freezing device for air evacuation can turn off the water control switch after use, which can prevent frost from accumulated water inside the manual air evacuation equipment, effectively solve the problem that the pipeline can not be used because of the low ambient temperature, resulting in serious consequences.

3. Flow regulator can adjust the size of water flow according to the pressure of water source. Effective prevention of secondary injury caused by excessive water pressure.

Abs Wall Mounted Eye Washer

The whole body is made of high quality ABS engineering plastics with excellent corrosion resistance to acid and alkali. Suitable for the use of stainless steel can not meet the requirements of the use of strong corrosive environment

Precautions for use

- 1: stay away from plexiglass glue (acrylic glue), or carbon, acrylic acid, methacrylic acid chemicals.
- 2: away from open fire, material with flammability
- 3: Stay away from epoxy resin and curing agent

capacity: 8 gallons (30L)
size: L*W*H = 550X257X365mm
